PUBLIC SERVICE ANNOUNCEMENT

Utilities Department - Engineering Temporary Traffic Control Configuration

Alamogordo, NM Monday, December 15, 2025

Please be advised that a temporary traffic control configuration will be in effect at the intersection of 9th Street and New York Avenue.

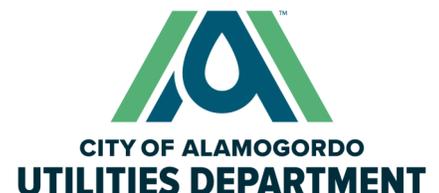

New York Avenue was temporarily opened to through traffic over the past two weeks to maintain business access and accommodate scheduled events. That temporary condition has ended. With the closure of 9th Street and New York Avenue for the next four days, a temporary parking and access plan is being implemented.

Businesses along New York Avenue will remain accessible up to the 9th Street intersection; however, through traffic will not be permitted. To maintain business access, New York Avenue will temporarily operate as a two-way roadway for parking maneuvers on the west side of the street only. This allows vehicles to safely navigate and exit onto 10th Street. A temporary stop sign will be in place at the intersection of 10th Street and New York Avenue for vehicles exiting New York Avenue and traveling eastbound onto 10th Street. Left or westbound turns onto 10th Street are not permitted. New York Avenue and 8th Street will also temporarily operate as a two-way roadway to allow access from 8th Street, with parking permitted on the west side only. Motorists are advised to use caution and follow all posted signage.
